# BLACK RACE ALL OVER THE WORLD TO UNITE AND HELP DEVELOP LIBERIA AND ABYSSINIA

Fellow Members of the Negro Race, Greeting:

The Universal Negro Improvement Association, the world's largest and greatest Negro movement, appeals to each and every Negro for a sober consideration of its program, in that it is our desire to have all the people working together for the common good. The Universal Negro Improvement Association seeks to unite the four hundred million members of our race into one organized body for the purpose of working for our industrial and political emancipation. We desire, not only to have a country of our own wherein to develop ourselves as a national force, but also to work for the industrial emancipation of our race everywhere.

## The Slaves of Others

We realize that a race that is industrially dependent naturally becomes the slave of others, such as we have been for the last three hundred years. The time has really come for those of us of light and leading to use our energies and abilities in helping to establish the Negro on a firm industrial base. If we can succeed in making the race industrially independent and free, there is every reason for us to assume that all the other changes desired will gradually be accomplished. For the purpose of making this industrial base as firm as possible, we are now asking the race to concentrate upon the development of the little black republic of Liberia.

## Possibilities of a Race

We would like to have every Negro, who is able, to repatriate himself to that country, under the direction of the Universal Negro Improvement Association, and help in its development. The industrial, agricultural and commercial possibilities of that country are untold, the exploitation of which will be left to the sober judgment of those who desire to make it their future home.

## INDUSTRIAL, COMMERCIAL, CULTURAL AND RELIGIOUS FUTURE OF RACE IN AFRICA

## JEW'S BUILDING PALESTINE; NEGROES BUILDING LIBERIA

LET US ALL GET TOGETHER AND HELP

BIG CONVENTION IN NEW YORK, AUGUST, 1924

Liberia is a black republic governed by black men, offering to the black peoples of the world the greatest opportunity for their development.

The Universal Negro Improvement Association wants every one, especially its members, to take advantage of the opportunity in becoming a part of the citizenry of this rising nation. Abyssinia also offers a welcome to members of the Universal Negro Improvement Association to help in her development, though we are not ready yet for the promotion of our colonization plans for Abyssinia, but right now we want all well-thinking Negroes to start making preparation for going to Liberia.

## Colonization Plan of 1924

The Association intends to spend millions of dollars during 1924 and 1925 on the colonization plans for developing Liberia, and it is felt that with the co-operation and help of the members throughout the world, so much will be done as to render us able to show the world in a short while the capability of the Negro in helping and developing himself when honestly left alone. The opportunity to assist in building one's own country, where peace and happiness are guaranteed, is to us Negroes unique. We have assisted in building up the nations of others, to be kicked about and abused, and then in other cases murdered; but here the four hundred millions of us have a chance of uniting our educational, industrial, cultural and financial

forces in building a country that we can call home.

## Africa, the Home of the Blacks

Africa is the home of all black men, and Liberia is the open door to that motherland of ours. Let us help build her to the foremost place among the nations of the world. As Englishmen have worked for the development of the great English nation, as Americans have worked for the development of the great American commonwealth, so the four hundred million Negroes of the world should work for the development of black Liberia. Let us make our homes there. Let us guarantee to our children and generations yet unborn the protection of a nation of their own. Each and every one can help in this respect and foster the program of the Universal Negro Improvement Association for 1924.

With very best wishes, I have the honor to be  
Your obedient servant,

MARCUS GARVEY,  
President-General,

Universal Negro Improvement Association.  
Boston, Mass., May 27, 1924.

P. S.—All members, chapters and divisions of the Universal Negro Improvement Association are again reminded that our convention of this year will only admit delegates from financial divisions and chapters to discussions affecting the interest of the Association. All members, therefore, are requested to see that their divisions become financial with the Parent Body and that they themselves become financial by paying up the annual assessment tax which became due from the 1st of January. Members are also requested to collect on the collecting lists sent them for the Convention Fund and forward same to the Parent Body weekly.

### VETO OF BONUS BILL OVERRIDDEN BY THE SENATE

### Republican Party Demoralized in the Congress and Democrats Jubilant—Friends and Foes of the Measure

### A PRICE ON PATRIOTISM

### WASHINGTON, Monday.—The Senate today overrode President Coolidge's veto of the bonus bill. The vote was 59 to 28 in favor of the measure.

### In Doubt Till Last

### Several Republican congressmen were in doubt till the last moment as to whether they would vote for the bill.

### Thirty Republicans, twenty-five Democrats and the two Farmer-Labor members voted to sustain the President.

### Less than a dozen Senators were absent when actual consideration of the bill began with the reading of the President's veto message.

### When the bill was called up Senator Over of Pennsylvania, anti-bonus leader, moved to override the veto.

### Mr. Over's motion was seconded by Mr. Clegg, Democrat, and Mr. Clegg.

### Dr. Du Bois, while on the ramparts, professed to sit in castles to meet Kelly Miller, his good friend.

### Mr. Miller, who is a member of the Senate, said he would support the bill.

### Mr. Miller's vote was the deciding factor in the bill's passage.

Nuestro elemento coopera en pro del éxito de la nueva corporación naviera

Estamos navegando por todos los mares a partir de septiembre próximo—El continente africano única tierra de promisión en donde asegurar el futuro de la raza.

Tenemos en perspectiva y con tal objeto nos preparamos para el día en que nuestro primer grupo de colonizadores

Antes de llegar a esta realización, hemos de redoblar nuestros esfuerzos para adquirir el primer vapor de la nueva corporación naviera. El caso al presente es vapores, vapores y más vapores, y todo miembro de esta organización debe poner de su parte con este objeto.

Esta es la labor a la cual todos debemos prestar cooperación.

El presente y el próximo año, según hemos manifestado de antemano, serán los años prehistóricos de nuestra organización. Hemos delineado los planes que han de tender a mejorar generalmente nuestra condición actual, dirigiendo nuestras miras hacia nuestra propia salvación industrial.

Debemos tener embarcaciones para así poder hacernos cargo de los intereses industriales y comerciales de nuestro pueblo universalmente

Debemos tener embarcaciones para así poder hacernos cargo de los intereses industriales y comerciales de nuestro pueblo universalmente; debemos estar en posición de poder transportar nuestros productos naturales, y colocarlos en los distintos mercados del mundo, así como también en nuestras propias fabricas, para crear nuestra propia fuente pecuniaria que nos libre de la terrible crisis que nos amenaza en el mundo industrial.

Si hemos de subsistir, debemos hacer esfuerzos para ayudarnos mutuamente y por lo tanto nuestra organización advierte a todo miembro progresista de la raza el ir a la república de Liberia, en donde puede convertirse en parte integrante del adelanto industrial de aquella tierra de promisión

Si hemos de subsistir, debemos hacer esfuerzos para ayudarnos mutuamente y por lo tanto nuestra organización advierte a todo miembro progresista de la raza el ir a la república de Liberia, en donde puede convertirse en parte integrante del adelanto industrial de aquella tierra de promisión; y no solamente debe nuestra elemento contribuir al desarrollo y adelanto de Liberia, sino que debe también, bajo la dirección de la organización, asistir en el desenvolvimiento de todas las naciones y de todas las comunidades de nuestra raza; de ese modo hemos de fortalecernos en la gran lucha por la subsistencia del mejor modo preparado para ella.

El día ha de llegar, y por ello hacemos al presente grandes esfuerzos, cuando la cruz negra, como símbolo de nuestra marina mercante, se vea por todos los mares del universo transportando nuestro comercio; por esto todos y cada uno debemos de laborar. No existe dificultad alguna en la realización de este proyecto, toda vez que unidos todos nuestros esfuerzos y todos nuestros sentimientos patrocinemos nuestra propias empresas, velando siempre por la dirección adecuada de ellas.

No existe dificultad alguna en la realización de este proyecto, toda vez que unidos todos nuestros esfuerzos y todos nuestros sentimientos patrocinemos nuestra propias empresas, velando siempre por la dirección adecuada de ellas. Esta es la hora suprema en que todo miembro de la organización y todo elemento leal de la raza deba afiliarse y tomar parte en este gran movimiento, el cual presigue a toda costa la salvación todos.

Con la asistencia industrial y educativa de nuestro elemento progresista, hemos de repetir, la república de Liberia será tan invulnerable en el continente africano, como lo es cualquier otra nación predominante en cualquier otro continente.

Con la asistencia industrial y educativa de nuestro elemento progresista, hemos de repetir, la república de Liberia será tan invulnerable en el continente africano, como lo es cualquier otra nación predominante en cualquier otro continente. Dentro de pocos años más veremos surgir en la parte accidental de aquel continente, una nación poderosa, a la vez que protejiendo, velando por los intereses generales de la raza. Estamos en la obligación de aportar con todo nuestro concurso en tal dirección, cuyo resultado práctico redundará en nuestro propio beneficio, toda vez que la instalación de dicha república fué basada en los principios de adelanto y protección para con nuestro elemento.

El elemento industrial de otras razas, no lo filósofos, han constituido sus respectivas naciones; el elemento industrial de la nuestra ha de restituir a Etiopia su antigua gloria.

El elemento industrial de otras razas, no lo filósofos, han constituido sus respectivas naciones; el elemento industrial de la nuestra ha de restituir a Etiopia su antigua gloria. Para nosotros no es esta una edad de filósofos, sino una era de labor; los filósofos son naturalmente los ociosos de la civilización, y nosotros no podemos patrocinarnos el ocio a costas de nuestro progreso. El negro moderno y de inteligencia progresista no está grandemente interesado en la filosofía de Sócrates o de Platón, como lo está en la filosofía de las necesidades humanas. Estamos interesados en la filosofía de ayudar al necesitado y de destruir la ignorancia por medio de las prácticas de sentido común; de estas diñana el elemento que produce, destruyendo al elemento que solamente consume. Tal es nuestra filosofía.

Una Voto nullificado

La lucha de cinco años para proferir un voto por los veteranos de la guerra mundial, en número de cuatro millones, fué ganada al fin a pesar de la oposición del presidente. El voto de los veteranos fué nulo por la mala codificación de la medida. El senador representó el último acto al haber puesto la recompenza aprobada por el presidente en el camino de la ley del voto.

Ampliando una autonomía

La aprobación por el Senado de la ley que provee la elección por el portorriqueño de su propio gobernador, es el tercer proyecto relativo de los servicios de cada individuo, al tipo de un dólar por día en el servicio interior y de un dólar veinte y cinco en el exterior. El proyecto relativo al pago de salarios de los funcionarios de la isla, así como la construcción de ciertos edificios para aduana. Habiendo sido aprobado el proyecto de ley del voto, el presidente Coolidge, que se encontraba en el momento de salir de la ciudad de Washington, se apresuró a firmar la ley.

Indemnización a un periodico

El Senado ha aprobado un proyecto que ha pasado a la cámara por su ratificación, en el cual se concede un pago de setenta y cinco pesos al señor Salvador Buitrago Díaz, propietario del diario "La Tribuna," de Managua, Nicaragua, por haber sido víctima de un atentado por las tropas de infantería de marina de los Estados Unidos el 6 de febrero de 1921. La recompenza por el atentado fué de \$100.000. El diario fue indemnizado por el gobierno de los Estados Unidos, en un monto de \$100.000. El proyecto fué aprobado por el Senado el 29 de mayo de 1924.

Let's put it over

El proyecto en su gusto en el asunto del bono. La cuenta por los contribuyentes de los impuestos de millones de pesos significan que los contribuyentes tendrán que recurrir a la esperanza de conservar el bono de los impuestos de los Estados Unidos. El proyecto fué aprobado por el Senado el 29 de mayo de 1924.

Burla a este país en Francia

El equipo americano de football es burlado en Francia; la bandera de los Estados Unidos es silbada; y hay patriotas en este lado del Atlántico que se burlan de nosotros por nuestra incapacidad para echar los franceses de Francia. Interpretaciones

No hay que exagerar el alcance de las originalidades de los pueblos. Todos los pueblos que están dentro de una cultura y de una de las grandes familias étnicas, tienen características comunes. El ciudadano de un país no debe sentirse superior a los ciudadanos de otros países. Todos los pueblos que están dentro de una cultura y de una de las grandes familias étnicas, tienen características comunes.

Panamá y el nuevo tratado

Se tiene entendido que en el nuevo tratado el departamento de estado puede hacer un contrato con el gobierno de Panamá, dadas las concesiones pactadas por la república. La demora en la ratificación del tratado por el Senado de los Estados Unidos es un obstáculo para el progreso de la obra. El nuevo tratado es un contrato con el gobierno de Panamá, dadas las concesiones pactadas por la república.

OUR WOMEN and WHAT THEY THINK - Edited by Mrs. Amy Jacques Garvey

MORE ATTENTION GIVEN TO OUR CHILD LIFE

ONE of the most significant and gratifying signs of the times is the increased attention which is being given by legislators and uplift organizations to child life. The medical profession is carrying the scientific treatment of child life into the home in such a way as to stimulate parents to a higher sense of their obligations in this vital matter.

And right here is a good place in which to make acknowledgment of the splendid service the physicians of the race have rendered, and are rendering, not only in the conservation of child life but in the general health of the race. The fact that in some parts of the country white physicians have not cared to have Negro patients at all, has made an opening for our physicians and enlarged their usefulness in a way that it could not otherwise have been, and which has served as well in the development of our vast drug store interests.

Our physicians in the more favored States of the North and West have been equally faithful in their service, both in the conservation of child life and of adult life, but they have had more opposition to contend with, in the disposition, unfortunately, of the race to support white physicians and druggists in all directions of which it needs to be healed. Each of us can help do so by supporting our physicians and druggists in every situation in preference to the physicians and druggists of other race groups.

But let us get back to the conservation of child life. We are all gratified at the awakened sense of responsibility and obligation to their children of the parents of the children of the public schools, who watch the army of children attending the public schools, and who are not only being compelled to make to enable their children to have the decent appearance they do in the matter of clothing and deportment, but a majority of our parents are very poor and the cost of living is very high, while the average wages they receive is very small, as compared with what others in similar employment get; yet, the appearance of our children and their deportment on the streets will compare favorably with that of the children of more favored groups—more favored in the matter of wage-earning and living conditions. And home influences have much, if not most, to do with the conservation of child life and the healthy development of the mind and body, the disposition and the character, of childhood.

We shall have a stronger man and womanhood in the future, because of the close attention that is being given to the physical and mental oversight and direction of the child life of the race, and the greater preparedness of an educated motherhood. And that is getting an early start in the home influences. And that is a matter of the greatest importance and upon which we are entirely excusable for congratulating ourselves. It is a good and healthy condition, an educated motherhood, one which we can all glory in and do as much as possible to extend and strengthen.

The editor of the Woman's Page of The Negro World is intensely interested in this vital question of the conservation and nurture of child life, and would be gratified to have expressions from the mothers of the race who are readers of this page.

ENGLAND'S 2,000,000 SURPLUS WOMEN FACE CRITICAL PERIOD

Jobless and Husbandless They Emigrate to Dominions in Groups—British Woman Leader Asserts "England is Hard Up"

The following extracts, taken from an interesting article by Betty Ross in the New York Times, dealing with the perplexing problem that confronts the modern woman in England, and which are much like those that confront American women of all race groups, are of interest to our readers. The woman's page of The Negro World:

England and its women, caught in a whirlpool of perplexing industrial problems? The subject of the question of Helen Fraser, Liberal candidate for the British Parliament in 1923 and an active worker in the British women's movement, who is lecturing in America on political questions.

"And why women? Because they are already starting this by getting better jobs for children and women. For instance, they have just made divorce equal for men and women. Hitherto only a man could obtain a divorce for any reason. They have passed a bill improving the position of illegitimate children and are now working on a separation bill improving the status of the wife and children separated from the husband and father. These bills do not mean that the woman is to be treated as an equal to the man. They only give women equal rights and save the man from the first time, and are entitled to inherit land and real property equally with their brothers.

"I do not hesitate to maintain that wider freedom for women makes higher standards of morality," said Miss Edith Picton-Turbervill, preacher, social worker and member of the British House of Commons. "I have been lecturing, after a six weeks' lecture tour of this country and Canada.

"I believe that the home life of every people should be safeguarded and protected by the government. It is the duty of government to protect the home of its citizens. On every hand we are being drawn away from the home of the future. I think there is no chance of our ever having a real home life. There will be a much greater control of drinking while the government is in power, however. The brewers and liquor interests have a single friend in the present cabinet.

"I believe that religious and political life ought to be brought into the home. I believe that religious life is not so much a matter of the church as it is of the home. I believe that the ethics of the Christian religion.

Coopération générale de la Race pour la bonne réussite d'une Ligne des Bâteaux à Vapeur: Premier Navire doit être expédié de New York à destination de Libéria, au mois de Septembre

Concitoyens de la Race Nègre, Salut: Nous envisageons le jour que les premiers colets quitteront les Etats Unis à destination de Libéria, pour prendre une part active dans le développement agricole, commercial et industriel de ce pays, afin qu'un moyen d'un progrès économique cette République Noire puisse être classée parmi les grandes nations du monde.

Je n'ai pas le temps de vous écrire plus longuement, mais je suis sûr que vous serez intéressés à savoir que le premier navire de la Black Cross Navigation and Trading Company. Nous demandons des navires, et encore un plus grand nombre de navires. Chaque membre de l'Association doit contribuer sa quote-part dans le but déterminé d'avoir au mois de Septembre le premier steamer de la nouvelle Ligne.

Nous avons des membres qui sont à même de contribuer et qui sont toujours disposés de se sacrifier pour l'Association. Dans la circonstance actuelle nous voulons que tous les membres de la Universal Improvement Association soient imbus du même désir, et que les mêmes ambitions les animent tous. Pour ce qui a trait à la Black Cross Navigation and Trading Company, la création de cette marine marchande exige une assez grande disponibilité de fonds.

Comme déjà signalé dans un message précédent, les années 1924-1925 seront des années exceptionnelles dans les annales de la race. Déjà des plans ont été formulés par lesquels les conditions générales de la race dans le monde entier doivent être améliorées. Il importe actuellement que nous nous occupions sérieusement de notre propre salut industriel. Ceci n'est possible que par une coopération intense en faveur de la Black Cross Navigation and Trading Company.

Pour considérer les intérêts de la race dans le monde entier, des navires sont indispensables. De nécessité, il importe que le transport de nos denrées soit effectué par nos propres navires qu'ils débarqueront dans les divers ports où ces denrées trouveront sans difficulté un marché favorable. Concurrer avec ce mouvement transatlantique, nos usines et nos fabriques doivent fonctionner dans le développement d'une industrie nationale, et pour nous épargner en même temps la réaction terrible dont, comme race, nous sommes fortement menacés.

Chacun se constitue donc un agent pour la propagation et la consolidation de cette Ligue de vapeurs de la Black Cross Navigation and Trading Company. Ceux d'entre nous qui peuvent aider la situation par nos finances sont priés d'être en mesure de le faire. Il existe une raison du monde qui soit de nature pour nous empêcher d'expédier sur son voyage historique, à destination de Libéria, notre premier navire à la date du 1er Septembre, 1924. Envoyez vos emprunts, et vos contributions, suivant l'avis ci-dessus à l'adresse de la Black Cross Navigation and Trading Company, 56 West 137th Street, New York City, U. S. A.

Avec mes meilleurs souhaits, j'ai l'honneur d'être, Votre dévoué serviteur, MARCUS GARVEY.

JAPON

Le voyage de M. Merin au Japon a donné lieu à des commentaires tendancieux dans la presse anglaise. Le gouvernement japonais de l'Indochine, en se rendant à Tokio, va retrouver une tradition suivie avant la guerre de 1914 par tous ses prédécesseurs, et en dernier lieu, par M. Roume. D'ailleurs, les représentants de certaines possessions étrangères, les Philippines notamment, ont accompli de leur côté des voyages analogues au Japon.

M. Merin voudra renouveler au Japon l'occasion de son voyage officiel de la République française. L'occasion de son voyage officiel de la République française. L'occasion de son voyage officiel de la République française.

C'est pourquoi, en ce qui concerne le Japon, nous sommes convaincus que le Japon sera un jour un pays prospère et d'intelligence ouverte à la France et à l'Angleterre; ce royaume ne sera pas un pays qui sera un jour un pays prospère et d'intelligence ouverte à la France et à l'Angleterre.

Les fêtes de Jeanne d'Arc à Orléans (Le Temps) Les fêtes traditionnelles de Jeanne d'Arc ont été célébrées à Orléans, suivant le programme accoutumé. Toutefois, par exception, la municipalité n'avait pas cru devoir adresser à une haute personnalité civile ou militaire: un instant, elle avait pensé à faire une démarche auprès du président de la République pour le prier d'honorer ces fêtes de sa présence; mais elle avait renoncé à son projet, en raison de la proximité des élections législatives.

La partie religieuse était présidée par le cardinal Dubois, archevêque de Paris, qu'entouraient ses auxiliaires, Mgr Baudrillard, Mgr Roland Gosselin et Mgr Chapal, et les évêques de Blois, de Meaux, de Versailles et de Chartres. Hier soir, en remettant, devant la cathédrale Sainte-Croix, l'étendard de la Fucelle à l'évêque d'Orléans, le cardinal Dubois a prononcé un discours d'adieu, dans lequel il a félicité l'évêque d'Orléans d'avoir pu récompenser par la plus haute distinction ecclésiastique ses efforts pour l'exaltation de la grande figure de Jeanne d'Arc.

THE PEOPLE'S FORUM

The Reward of Unselfish Service

Editor of The Negro World: Allow me space in your valuable columns to state that, fortunately for human progress, there are a few men who feel more acutely the call to direct service in the bringing of a better day. Such men are far vaster and do not put the problem of making a living first and human service an incidental addition. Nothing is so inspiring to the rest of us in contact with this sort of conception of life which delivers the full measure of devotion to the men who came to the belief that the gift of their lives was none too great a sacrifice to lay on the altar of human service. All these servants upon man's highways are the true saviors of the world, who are the high-priest men of the world, whose price is above all common currency. They are paid in the coin of consciousness of the regeneration of others.

MILTON POLLARD. Cleveland, Ohio.

Let Us Do Noble Things For the Organization

To the Editor of The Negro World: A kite will not go up in a calm or steady wind. A vessel cannot sail in a dead calm. It is the storm that hastens the bark to its destination. So to develop power we must meet opposition. It is competition, opposition, that brings a man out. So it is with an organization. Opposition and difficulties are stimulants to nerve us to greater efforts. There is perhaps no station in life in which difficulties have not to be encountered and overcome before any decided measure of success can be achieved. We must have opposition if we will excel. Let us do noble things for our organization and our race, not dream them. Always make life death, and that vast forever one grand, sweet song.

A Homeland Cry From Mesa

To the Editor of The Negro World: What race could have a grander motto than ours: "One God, One Alm, One Destiny," with our slogan "Africa for the Africans at home and abroad"? What people could find fault with us for wanting to establish a government of our own, where we should be assured of getting equal protection of the laws, where we can aspire to the highest office in the country, where our men and boys will not be lynched and burned for a crime in many instances they don't commit, but not being where we can get equal protection are denied in many instances a trial except by Judge Lynch, and where our womanhood can be protected? Oh, who could blame us or find fault with us for wanting "liberty" like other people?

MRS. S. M. TAYLOR. Mesa, Arizona.

Call to the Faithful To Get Together

To the Editor of The Negro World: Let all true-hearted members get together as one single unit! Get together and help steer at the wheel of success. We must all go shoulder to shoulder to put this great program over for the redemption of Africa. Don't say that it can't be done, because if we all are ambitious it will be done.

What Think Ye Of Marcus Garvey?

To the Editor of The Negro World: Humanity has now reached the crossroads of time, and as we wonder and ponder over the ethical things of time and sense, we find ourselves marching step by step in an endeavor to regain the glories of ancient Ethiopia. Thus we await with a pleasing expectation the coming of that era, "the return of scattered Ham." Let us paint an imaginary picture of Africa redeemed, in this we also see great cathedrals, universities of learning, colleges, a great African corpus juris civilis, and the adoption of an African national constitution to be respected by the other peoples of the world. These things for which the Universal Negro Improvement Association stands can be obtained if we but harken to the voice that calls us. Then, "what think ye of Marcus Garvey?" B. A. LAWRENCE. NEWS AND VIEWS U. N. I. A. DIVISIONS

(Continued from page 8)

KINGSTON, JAMAICA

The Kingston Division of the Universal Negro Improvement Association is making great headway. Our indoor and outdoor mass meetings are well attended and much enthusiasm is displayed.

On Sunday night, the 4th inst., we had a distinguished visitor in the person of Mr. Wedderburn, representative of the Christian Science Association of the U. S. A. Our Liberty Hall was filled to its utmost capacity with persons who were very anxious to have more practical knowledge of the religion of Jesus Christ. Mr. Wedderburn, who is a very fluent speaker, and who has a great knowledge of the practical side of religion, did not fail to impress his hearers. He spoke for over two hours, and at the conclusion, was just as fresh as when he started. It was impossible to have Mr. Wedderburn again to address us as he leaves for America at a very early date. Mr. Wedderburn leaves with the best wishes of the members of this division.

Another feature of my report is a Cantata entitled: "Our Minister's Birthday." The program was a well got up one and reflects great credit on Miss Miller, the organist and choir mistress of the division. The singing was of a high order and the performance was excellent. Even the greatest enemies of Garveyism are realizing that the program of the Universal Negro Improvement Association is one of uplift to the Negro youths of the day. Long live the Hon. Marcus Garvey!

Much interest is evinced in the expected return of the steamship corporation, and Mr. G. T. Allan, our general secretary, is formulating a plan to raise a decent sum of money to help the parent body in so stupendous an undertaking. The people of Jamaica are willing givers to any good cause, but the economic conditions of the island does not permit them giving as much as they would like to. It is hoped that in a very short time, all things working well, we will be able to

to do our very best financially for the cause of Africa.

To further the cause of education among our members, a night school is being formed where various subjects such as reading, spelling, arithmetic, history, geography, writing and other subjects of importance to the advancement of the Negro will be taught. The officers of the division are doing their very best to encourage the greatest interest possible in the organization.

Elaborate preparations are being made to unveil the newly acquired banner of the association at the Ward Theatre on Sunday, the 18th inst. The ceremony will also mark the third anniversary of the reorganization of the Kingston Division of the Universal Negro Improvement Association.

The reorganization was done by His Excellency, Marcus Garvey, President General, while on his extensive tour of the West Indies and Central America.

SAN GERMAN, CUBA

On Sunday, April 20, the San German Division No. 723 held an enthusiastic Easter service which commenced at 4 p. m. This meeting was well attended. Much praise must be given to Mr. Joseph Grant of Santiago de Cuba, who helped to make the evening a success.

A very enthusiastic mass meeting was staged at 8 p. m. The topic of this meeting was "Garvey Symbolizing Christ," which was intelligently explained by Mr. J. Grant, acting as chaplain.

We were well entertained by other distinguished visitors in the person of Mr. R. A. Barrett, president of the Jobabo division, Mr. P. Francis, treasurer of the Camaguey division and Mr. J. Johnson of the Marcano division, all demonstrating that the Garvey movement is the only solution to the problems of the Negro race.

The meeting was brought to a close with the singing of our national anthem, followed with prayer.

LEONARD ERYAN, Acting Executive Secretary.

IDA MAY, WEST VIRGINIA

Just a few lines to let you know how the Ida May division is getting on. We had a meeting on Friday night, May 16, 1924, for the purpose of electing new officers for the next term.

The result of the election was as follows: Mr. C. E. Wright, president; Mr. E. W. Wilson, vice-president; Mrs. Ora Mae Evans, lady president; Mr. L. C. Evans, general secretary; Mrs. Anzola Laster, recording secretary; Mr. James Cooper, treasurer; Mr. N. Dory, chaplain. We have great faith in the officers and trust that under their guidance the division will make rapid progress.

NEUVITAS, CAMAGUEY

In spite of the unsettled weather a goodly number of people assembled at our Liberty Hall to bid farewell to Dr. J. M. Brown and Miss V. Cooke on Sunday night, May 11, who were leaving for the United States. The meeting was called to order by the president, Mr. S. M. Stephenson, with the singing of the opening ode, followed by prayer. Psalm 89 was read and appropriate hymns for the occasion were sung. The president spoke in very high terms of Dr. Brown and Miss Cooke. He said that these members had rendered yeoman service to the local and their loss would be felt.

in the community and especially in the U. N. I. A.

Dr. Brown was then called upon to give his farewell address. He said among other things that he would always support the U. N. I. A. until the last and would always wear his button. He urged upon his hearers to stick to the U. N. I. A., and the colors the Red, Black and Green. Miss Cooke was called upon, and exhorted her members to stand fast and never to give up. Addresses were also given by Mr. S. W. Miller, J. M. Watson, R. S. McNeil, M. Dick and Mrs. M. James. Mrs. L. Donalds presided at the organ. Dr. Brown and Miss Cooke will leave Cuba by way of Antilla.

MONTREAL, CANADA

Under the direction of Mr. Trot, the newly elected president of the local, Montreal division is making rapid progress and several new members are being received into the association. Mr. Trot is a youth of great promise, well read, resourceful, forceful, and of pleasing manners. We are sure that under his management the division will become the premier division in North America. The branch regrets Mr. Trot's resignation, but unavoidable circumstances compelled him to resign the presidency which he had filled in a very capable manner. His person, however, still graces the platform, and he continues to be an ardent worker. The great attraction of the division is the orchestra, which increases in excellence each week. The personnel of the orchestra is as follows: Messrs. Dyal, Sealy, Crawford, Hamilton, Diegs, Davis, Sealy, Jr., Mills, Tucker, and Miss Banner. Mr. McKenzie has rendered excellent work as pianist. The juvenile department, directed by Mrs. Deshield, Mrs. Julian, Mrs. Potter and Mrs. Clarke, gave a special program recently, which was well received. Among those who contributed to the program last Sunday were: Mr. Allen, secretary of the Toronto division, who delivered a splendid address; Mrs. Marshall, Mrs. Julian, Mrs. O'Brien, Mrs. Lane and Mrs. McKinley.

CENTRAL ELIA, CAM, CUBA

On April 27 the newly organized division of the U. N. I. A. at Central Elia held a very enthusiastic meeting, which was well attended by the members and friends of the local. The meeting was called to order at 7 p. m., by the first vice-president, who, in the absence of the president, took the chair. The chairman after requesting the audience to repeat the motto of the association and having recited the Lord's prayer, informed the audience that the president was unable to attend, on account of illness.

Any Man Can Feel Young, Look Young and Be Young

Eminent German Scientist Perfects Wonderful Discovery for Restoring the Power and Vitality of Youth.

Every man or woman who has grown old "too soon" may be rejuvenated and again enjoy the thrills of renewed vigor, strength and vitality as in the days of youth. An eminently successful German scientist, after years of research, has discovered a simple "yet powerful" treatment for arousing, stimulating and developing the mysterious Endocrine glands of the human body. The Endocrine Laboratory reports by eminent physicians that they have arranged to make this treatment really available to all who realize that they are "too old" for their years and "let the need of a dependable rejuvenating agent. This treatment, because of its quick, direct, selective action, is called GLANOTONE, comes in tablet form, is inexpensive and can be easily taken by anyone, anywhere. Thousands who have tried GLANOTONE have been amazed at the almost immediate results, frequently within two or three days, and astonished to feel the vigor and strength of youth returning to them so soon. The great success of GLANOTONE is due to the method of combining the GLAND and AFRICAN BARK treatment together with

other powerful but harmless ingredients for stimulating both gland and nerve centers to normal activity, causing ailments to disappear and vigor, health and power to return. Those desiring and wishing to avoid painful, dangerous and expensive operations just send your name and address to the Endocrine Laboratory, Dept. K, St. Louis, U.S.A., and they will send you by mail a full \$4.00 treatment for the advertising price of \$2.00.
