The Petty Men Who Are Fighting the U.N.I.A. Are But Sealing Their Own Doom

Fellow-Men of the Negro Race, Greeting:

It seems to me that all the experiences of the past have not served to cause men to cease from battering their heads against a stone wall—the enemy continues to hammer at the Universal Negro Improvement Association. But I want to say that those who fight the Universal Negro Improvement Association miscalculate the strength of this movement, misinterpret the spirit of the New Negro. The spirit of the Universal Negro Improvement Association cannot be broken notwithstanding the legions of hell, and at this time the legions of hell are lined up against the Universal Negro Improvement Association, but with the banner of righteousness we shall march on, defeating the foe at every step.

Some of you in New York do not really know the strength and enthusiasm of this movement. But those who go out to the outposts of the association come in contact with that devotional enthusiasm and loyalty that are incomparable. No such enthusiasm, no such loyalty and devotion to a cause has ever been seen before. In places where men once held themselves in fear and trembling, such as in the southern sections of this country and in places such as in the homeland, Africa, we find even the youth of the race standing up with a vigor, with a courage and with a determination never yet known to man. Day by day we gather evidence of the new spirit of loyalty and devotion to race, the new spirit of manhood that has possessed the race from all corners of the world.

Africa Is Half Won

Africa stands one great organized continent, one great organized section for the Universal Negro Improvement Association. Our work in Africa is half done. If half has been completed in seven years, give us ten years more and we will sweep Africa-we will sweep the world with an accomplishment that will go down the ages as the greatest accomplishment of man. Take it from me, that you who make up the Universal Negro Improvement Association are occupying more of the time and attention of the great nations and governments of the world than all that has happened within the last seven years. It is not so much the sabre rattling of Mussolini; it is not so much what Italy, or Turkey, or Russia will do in the future; the question that is puzzling the minds of the statesmen of Europe is what the Universal Negro Improvement Association backed by the 400,000,000 Negroes of the world is going to do. That is what is occupying the attention of Europe at this time, and that is responsible for the opposition that is being fostered against this movement internally and externally. They have resorted to all kinds of subterfuges to undermine the strength and influence of the Universal Negro Improvement Association; but the more they strike the greater grows this great cause; the greater this great cause scatters itself around the world.

Making History

The Universal Negro Improvement Association is making a history that will live forever, and those who oppose the Universal Negro Improvement Association are only writing their names down in the book of doom. Some think that the Universal Negro Improvement Association starts and ends with Marcus Garvey; but Marcus Garvey is only an accident in the career of this great race of ours. Long after Marcus Garvey will have passed from this scene of action, the cause of the Universal Negro Improvement Association will be marching on with men of even more vigor than Marcus Garvey.

So those who oppose the Universal Negro Improvement Association do not seem to realize that they are not opposing a human force; they are opposing a spiritual force that cannot be stopped. As they tried to oppose the religion of Christ by nailing Christ to the cross, but failed, in that after the Christ his religion came down the ages stronger and stronger until in the twentieth century it is the greatest physical and moral force of the world, so in the death of one leader of the Universal Negro Improvement Association, the work of the Universal Negro Improvement Association will be carried forward with stronger force and power.

Who Are the Opposers?

Who are they who fight the Universal Negro Improvement Association? Men and women of little means; men and women of little visions who fight the Uinversal Negro Improvement Association because they cannot calculate the destiny of this movement. They fight the Universal Negro Improvement Association because they cannot appreciate the value of human fellowship. If they had the wisdom of the centuries; if they had the wisdom of the ages they would have known beforehand that the Universal Negro Improvement Association has a place in the affairs of men that cannot easily be shaken. The Universal Negro Improvement Association is traveling toward a destiny even as races and nations in other ages have traveled toward a destiny.

And so the thing for us to realize is that our only drawback at this time is our lack of courage. When the 400,000,000 Negroes of the world can summon enough courage, can summon enough backbone, and when they become united in one purpose, at that very hour the whole world falls before the Universal Negro Improvement Association and the colors of the Red, the Black and the Green.

I have the honor to be,

Your obedient servant, Mareulaney

W. A. Wallace, in wording the appeal, says: "This school is dedicated to Negro culture, so that our youths may be taught the things they ought to know about the race with which they are identified, and thus bring back that race consciousness so needful to inspire the race to self-preservation and the accomplishment of great things." That is a very eloquent statement of the objects of Liberty University. Education is the strongest weapon with which to combat Most food fads represent partial versity. Education is the strongest weapon with which to compat wrong and outrage. We cannot have education unless we have schools of learning in which to train the young people. We see everywhere that the individuals and the nations which have the most thorough education, especially scientific, and specialized education, have the most commanding position in world affairs. So, then, it is the privilege and the duty of the members of the Universal Negro Improvement Association to make a contribution to the proper upbuilding and upkeep of Liberty University.

Most food fads represent partial truths. Hence, they are often fallacies. Their history is old as that of human the reason behind them shows just as little real reasoning. Let us consider vegetarianism, for instance. Extremists of this fad take a position of protest against the eating of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of animal flesh because of a philosophy that is opposed to the taking of ani

The surveys showed that, by the construction of a dam across the Blue Nile at Sennar, it

would be possible to store sufficient water for the irrigation, ultimately, of 3,000,000 acres of fertile, cotton-producing land, and immediately of 300,000 acres.

The task of building this granite structure has been successfully accomplished under the supervision of O. L. Prowde and his staff.—C. P. B.

Readers of The Negro World and sub-agents are requested in the interests of this paper and of the Association which it represents to pay regularly for their copies. Many delinquent agents claim that their failure to pay bills promptly is due to he fact that their sub-agents and readers do not pay regularly for their copies. Agents are not allowed to extend credit to others. They do so at their own risk. Readers and sub-agents, therefore, who do not settle with them are taking an unfair advantage of the situation.

Chicagoans Score Civil Rights **Victory**

Chicago (Special).-Edgar G. Brown, editor and tennis ace, center of a num ber of successful prominent controversies for personal rights, won an other victory Tuesday, to him more brilliant than any other, for, as he said, "it was a triumph for the entire race."

Three employees of the Bismarck Hotel, Otto K. Eltel, manager; J. B. Kearns, house detective, and Robert A. Rozell were compelled to recognize the of a Negro and made to promrights of a Negro and made to prom-ise that they would not practice dis-criminations against them in public place in the state of Illinois. The men were tried for violation of the Illinois Civil Rights Bill. The case was brough by Editor Brown and three Chicago attorneys as a result of Brown's ejection from the hotel after he had attempted to ride on a front elevator and a similar treatment of the lawyers when they went to investigate his complaint. The case was handled by the three attorneys involved, Maj E. Patterson, Earl B. Dickerson and William E. Taylor. The editor has declared he intends to institute a damage suit of \$25,000 against the concern.

Edward J. Kelly, Democratic leader in a letter regarding the incident, stated: As manager of the Brennan campaign, I want you to know that neither Mr. Brennan nor myself approves of any such policy of racial discrimination.

"Furthermore, we deplore the insults and assaults to which you, Major Patterson, Mr. Edgar G. Brown and Attorney William E. Taylor have been

New Source of Rubber Is Found in Africa

CAPETOWN .-- A rich, new source for rubber has been found here. It has been discovered that the African Euphorbia tree yields a sap or latex of a quality comparable with that of Para rubber.

A South African company has been rganized to exploit a vast jungle near Box 68, Rudson Terminal Sta., New York, N. Y. East London, said to number more than sixty million trees. The average tree yields three pounds of latex. Attempts at vulcanizing are said to have been quite saisfactory.

Stress is laid on the fact that labor

is plentiful in the East London district and that the region is free from fever.
