# Marcus Garvey Sees Unqualified Success For Uplift Programme of the U. N. I. A.

Fellow-Men of the Negro Race, Greeting:

Owing to the tremendous pressure of business and traveling I have been unable to send you for a few weeks my regular weekly message, but I take the opportunity of now saying that all is well and encouragingly so. The great work of the UNIVERSAL NEGRO IMPROVEMENT ASSOCIATION is speeding up with a rapid momentum and all bids fair for a wonderful and tremendous convention in 1929.

## Foreign Field Rallying

The foreign field of our great organization is rallying for new life as never before, and I can see nothing else but success for our work. I am appealing to all the American Divisions to get together and present a united front, for our plans for 1928-1929 must mean a real stabilized organization ready for and engaged in progressive activities for the good of the race.

## Great Possibilities

The commercial, industrial and agricultural possibilities between the Negroes of America, the West Indies and Africa are good and inviting, and in a short while we shall so line up things as to stem the tide of our economic weakness. There is no reason why a great trade relationship cannot be developed between the members of our race all over the world so as to make us a self-reliant and progressive people. If the Negroes of America would only ignore traitors like W. E. B. Du Bois who try to discourage the race from independent action, then we could co-operate to advance our people and make them free from the domination of the white man.

against the dreadful days of unemployment of the Negro by the white man it was Negroes like Du Bois and Pickens who fought me for the white man until they delivered me up to him to be persecuted, but thank goodness I can do now much more good for the Negroes of America and the world, and these white men's Negroes will not be able to frame me as they did in America. I am laying a solid foundation on which the American, West Indian and African Negroes can build, and all I ask is the co-operation of all.

## Leaving for Europe

I shall leave for Europe in another few days, where I shall represent the interests of all the people of America, Canada, the West Indies, South and Central America and Africa. On my return to Jamaica I shall give out our new program for greater co-operation. The Hon. E. B. Knox, my personal representative in America, as leader of the American Negroes, is now on his way at sea to confer with me on the plans we must work out for our forthcoming Convention. It is our hope that in the near future a commercial, industrial and social contact will spring up between the American Negroes and

the West Indians so that we can foster a healthy trade relationship to our economic benefit. Untold millions can be made by the American Negroes by investing in the lands, trade and commerce of the West Indies. White men are now making their millions, but with the proper organization both American and West Indian Negroes can reap the benefits for the quicker glory of a redeemed Africa. Trade is the backbone of life, and the Negro must realize that it is only by intelligently following these economic lines can he lift himself to world recognition, power and independence.

### **Much in Store**

There is much in store for us to do and accomplish and I can promise you that I shall do my part to point you the way. I am hereby reminding all foreign Divisions to see that their reports reach the Foreign Headquarters at Kingston, Jamaica, regularly each month and that all American Divisions of the Organization report regularly each month to the American Headquarters at New York. All Divisions and members are requested to pay up the annual tax to be financial. This new start of ours to build the Organization must be indulged in by every member and Division. Let us go ahead and place the UNIVERSAL NEGRO IM-PROVEMENT ASSOCIATION where it ought to be.

With very best wishes, I have the honor to be, Your obedient servant,

Of ten officers and members of the Miami Division arrested in onnection with the murder, eight were subsequently freed, but Claude Green, ex-President, and J. B. Nemo, Colonel of the Legions, are being held under a charge of first degree murder.

There is evidence in abundance to show that these men at the time of the killing were not even in the vicinity of the murder, but the white newspapers in Miami and elsewhere are saying that Marcus Garvey wrote letters from Jamaica, giving orders to these two men to kill Laura Koffey at any cost and promising rewards if they were successful.

white labor in the character of work or the rate of the wages. The owing cablegram shows what is happening in Australia:

SYDNEY, Australia, March 29.-The House of Representatives of New South Wales has ordered the deportation of an American Negro jazz band known as Sonny Clay's Plantation Orchestra. It is understood the Federal cabinet will bar Negro entertainers from Australia and the ban may extend to Negro boxers. William Hughes, former Premier, demands that the ban be extended to curtail the entry of Italians. "We believe in a British white Australia," he said. "Yet Italians are coming to this country at the rate of 300 monthly. To whom does this country belong? To us or Mussolini?"

or Mr. Hughes enlarges on the policy by insisting upon "a British white Australia," necessarily to the exclusion not only of Italians, but other Europeans classed as belonging to the white races. If this new phase shall be incorporated in the policy of British colonies and incommonwealths it will certainly create a grave situation, more serious, perhaps, than the American policy of excluding from the citizenship Mexicans, Chinese, Japanese and Asiatics generally.

The African Negro is not barred out directly, but he is indirectly, as he must now come in as a part of the British allotment, and it is seen to that he does not get much of a chance to get in it.

regulated by subsistence possible, the world has become too small for the number of mouths to be fed and backs to be clothed, and, therefore, as is usually the case, the savage principle of self-preservation is actively at work. It can't very well be claimed that the carth has failed to yield a sufficiency for all, but it can be said that the sources of production, distribution and price-fixing have created a world-expansive system of monopoly which produces an artificial No. 9 deficiency, it having happened in New York during the past twelve months that whole carloads of perishable foodstuffs have been deliberately destroyed in order to maintain prices at the highest point.

## THE PEOPLE'S FORUM

### Is God on the Side Of the Strongest Group?

To the Editor of The Negro World: The Christian religion has been the tool of the white man in his schemes of universal dominance over peoples and nations which underlook to see Christianity during the past three conturies as it was shown to them wenty centuries ago by Jesus Christ, egic that "God is on the side of the strongest battallon." We believe he was both right and wrong, for God has domons rated time and again throughout the ages that He is with he strongest battalion while that batand righteousness, obeying His laws and His statutes; but that He is with the weaker battalions when that stronger battalion assumes to be its wa lord and master and regards His

laws and statutes as "more fragments of wind," as it recently regarded the

treaty of man as "mere scraps of

History, if we have read it aright, has shown us that at one time He was on the side of the Chinese battalion and at another time He was against it and that this shiftiness of Ged manifested itself all along the ages among the battalions of Egypt Baby-Medo-Persia, Greace, Assyria, Ethiopia, Macedonia, Timbuctu, Car-thaginia, Denmark, Spain, Rome and others. One by one in their turn as they regarded Him as their Lord and Master, keeping His laws and His statutes inviolate, He was on their but one by one in their turn as they disregarded Him, His laws and commandments and advanced after the exuse of the devil to capture, subjugate, exploit, torture and oppress His chosen people, He turned His back against them. Thus, with all their superiority complexes and much yaunted might which Napoleon mis-took for God until he reached Waterloo and Trafalgar, and which, too, the German Kaiser regarded as God until he met the Senegalese, Zulus, Ashantis. West Indian and American Negroes in France and Flanders during the last "European War," their names

today are mere history. If we are to have a conception Ged through the manifestations of the man we would undoubtedly be trapped into believing that God is mite the white man believes Him to respect to a treaty that was being nebe, but in view of the fate of civilization and empires of the past with all their might and power, happily, we are bound to conclude that there are some mysterious powers over which neither man nor any of his ungodly and destructive devices have any control.

Christian civilization has not yet done its work, you may rest assured of that; but that it is face to face with the fate of those of the past there can this advancing calamity is not balf as dangerous as what it would not do in a battle against fato and the darker peoples of the world whom it had regarded and treated as mere beaute, brutes that had no understanding.

It is remarkable that a man and character like Marcus Garvey apring up almost mysteriously in the African race at a time like this, for every in-telligent student, if he is not selfish but honest and fair-minded, will and must sconer or later admit that the future and ultimate fate not only of the African race but also of brown, vellow and red races is greatly secured through the grand principles of the Universal Negro Improvement Association and African Communities advocated by Murcus Garvey as well as by the fearlessness, courage and fixed determination of the man J. MILTON BATSON.
