Marcus Garvey Is Impressed By Change That Has Come Over Negroes Everywhere

Fellowmen of the Negro Race, Greeting:

I have returned to the Foreign Headquarters of the Universal Negro Improvement Association. On my arrival here at 12:30 A. M. on the 23rd instant I found assembled on the water-front an assemblage of thousands of people, who were gathered at that early hour of the morning to bid us welcome back to Jamaica. It was really a pleasant surprise to see such a congregation of enthusiastic and sincere well-wishers who had remained in waiting for more than eight hours until the ship arrived. When we landed, this vast throng of people paraded from the dock to Liberty Hall, which point was reached at 2 o'clock in the morning.

Great Change Among Negroes

This demonstration is another evidence of the great change that has come over the Negro. It is this change that the unfriendly forces and powers that be have been trying to submerge or thwart, and they have tried at different points to prevent me from visiting the various Negro communities that have invited me to visit them. As you all know, up to recently it was reserved only for white men to receive honor from the black crowd; this crowd has always been keyed up by somebody else to show appreciation for those who had no sympathy or love for them. But, thank God, the time has come when the black millions have realized that if they have any honor to show, it must be shown to their own. I have accepted these honors at the different parts I have been, such as in Canada (Toronto and Montreal); Hamilton, Bermuda; Nassau, Bahamas; and Kingston, Jamaica-not because I am Marcus Garvey, but because I am representing the interest of the Negro people such as they desire that interest to be represented. I fully realize that they have honored me everywhere I have been because I have fully expressed their feelings and their sentiment; therefore the honor that has been shown me will be shown to any black man following me or working with me for the good of the black people.

Negro Appreciates Himself

The attitude of the Negro today in showing appreciation for his own gives the lie to the ancient statement that black men will not honor and respect black men. It is because of the fact that some white men think that honor should be shown only to white men why the narrow-minded white people of Trinidad, Barbadoes and other places in the West Indies have tried to pass special legislation to prevent me visiting those countries where Negroes live. They were just afraid and jealous of the fact that the Negroes would show more respect for their own in those countries as they have done elsewhere; but even the narrow-mindedness of these little white men will not prevent the Negroes of Barbadoes, Trinidad and elsewhere showing that marked appreciation, not only for me but for any black man who will make the effort to lead them as I have done.

Advance Own Thought

The black man has reached the point where he is going to advance his own thought and create his own environment, and it is written in the law of nature—and, may I not say, in the stars of Heaven—that there shall be no power to interfere with nor curtail this desire of the new Negro to appreciate himself.

Canadian Affair

I have observed that a lot of publicity has been given to my supposed arrest in Canada by the Immigration Department of the Dominion Government. I have not made any mention of the matter before because I did not think it necessary, but in view of the fact that there have been so many interpretations placed upon the matter, I think it expedient to make a statement. As everybody knows, I was booked to sail from England for my home in Jamaica via Canada, where I had already made arrangements to meet

the American representatives of the organization at Toronto on the 2nd of November. I landed at Quebec on the night of the 27th of October and was handed a landing permit by the immigration authorities without any question. My going to Canada was not a secret-it was known in Canada several months before, as well as in the United States. In fact, I was advertised extensively in Montreal and Toronto to speak and appear at those places long before I arrived. I traveled from Southampton, England, to Quebec aboard the steamship Empress of Scotland, in company with the Hon, McKenzie King, Premier of Canada, who was a fellow-passenger. Mr. King and I shook hands before leaving the ship, so that my going to Canada was well known to the authorities of the country. I was booked to speak in Montreal on Tuesday night, the 30th of October, and it was known that I would speak in favor of Governor Alfred Smith, which speech would have been reported the next morning in the papers of the United States of America. Certain local political influences in Montreal, working in conjunction with certain political forces in America, decided on the plan that they would prevent me from speaking, so that what I might say would not be published in America prior to the election. Therefore, the Immigration Department issued a warrant for my detention on the technical matter of my entry into Canada, and this warrant was served just a half-hour before the hour of the meeting in Montreal. This I fully interpreted to have been done so as to prevent me from reaching the meeting that night. The next morning I was released and the matter ended. I am not holding the Government of Canada responsible for the arrest that evening, because I feel confident of the fact that the superior authorities knew nothing of the matter. At the hearing the next morning before the Immigration Board in Montreal, the commissioners admitted that they did not want to create any feeling of ill-will between the Administration at Washington and the Government in Canada by allowing me or anyone to make any speeches that would be misinterpreted as affecting American politics during the election. For that reason, and not desiring to create any embarrassment for Canada, being a British subject, and knowing full well the relationship between Canada and the United States, I agreed not to speak publicly during my stay in Canada, during the election. This is all to the matter, and I trust no other interpretation will be placed on it. However, what has happened in Canada only convinces us as Negroes that there is a great need for an Independent Negro Nation.

In the White Man's Country

I am always satisfied with anything the white man does to me in his, the white man's country, because this further convinces me and any black man that the Negro ought to have a country of his own. It matters not what flag you are under, if you do not belong to the dominant power that rules in that particular country, you are just "out of luck." It is, therefore, imperative that as a majority group of people we should find a country of our own.

I want to state that my trip abroad in the interest of the Universal Negro Improvement Association and the Negro race has brought about wonderful results. I have before me now a magnificent program which we shall make every effort to execute. When this program is executed with the co-operation of every unit of the race, I feel sure that we shall enter upon a new era of prosperity.

The Future Bright

I want to inspire the black people the world over to take new courage because the future holds everything that is bright. We must co-operate, we must unite, we must pull together. Whether we are from Mississippi, Georgia, Alabama, New York or Illinois in the United States, Barbadoes, Trinidad, Jamaica, Haiti or Cuba in the West Indies, British Guiana in South America, or British Honduras in Central America, or any of the Central American Republics, or from Africa, we must realize that we have a common cause. It is no longer for the world to ask, "Where you are from, Black Man?". It is just that you are black. It is imperative now that all of us get together, stand together, pull together, and if need be, die together in the great urge to emancipate ourselves the world over, economically, politically, industrially, commercially, religiously, educationally and otherwise to deliver our common country, Africa, and make of it an Independent Nation, self-respecting and powerful enough to demand the respect of all other nations and governments of the world for the black man.

Co-operate and Keep United

If the black people of the world will co-operate and keep united 1 prophesy that we are in the Age of the Black Man. As I have stated before, if little insignificant groups of people through organization have constituted themselves national and imperial forces such as Belgium, Portugal and Spain, there is no reason why 400,000,000 black people through organization should not constitute themselves one of the great powers of the world. This is what must be done, and we are going to do it. We are going to do it in a constitutional manner without any offense to constitutional law and order. We are going to demand our rights as human beings. I am again asking the Negro everywhere to help toward this end.

Everybody Must Report

I am asking for every division's, tranch's and chapter's hearty support to the Parent Body of the organization between now and the convention. Every division must now line up to make its proper report to the Parent Organization. Every division in the world by the first of January, 1929, must be reporting to the Parent Body. There is no excuse for any division in the world not becoming financial, because we must go to the convention on an equal footing, so I am asking that all members everywhere see to it that their divisions become financial. Every member is also requested to see that his or her annual assessment tax is paid by January, so that everybody, members and divisions, can be right with the great cause that we are representing.

In my next article I shall touch upon another phase of

our convention work.

All those who have funds in band (or the daily paper, the "Black Man," which will be started in January, are requested to forward same immediately.

With very best wishes, I have the honor to be

Your Obedient Servant,

AT CHRISTMASTIDE

MRISTMAS, the auniversary of the Savior's natal day, is with us again. And who is it that does not long for the coming of Christmas with its laughter and its tears, its sarprises and its disappointments, its well-meant but oftimes misht gifts, its pine trees glistening with tinsel, its hally wreaths and colorful political trees glistening with tinsel, its hally wreaths and colorful political trees giving and receiving—the one day when mankind area into a rich new African empire area into a rich new African empire systems and customs. Its best upon the after of friendship and love. Fortunate is the large synch its first same. lays its best upon the after of iriendship and love. Fortunate is the man or woman who has succeeded in capturing the red. Christmas spirit which has been so glotiously depicted by the immortal Discours.

We would not to Christmas of its fustive dress lest it lose its identity. Thousands look forward each year to the merry-making of the Christmas season. There is no day quite like it. The unit versal custom of exchanging gifts brings joy and happiness to the fact and of the large given as well as to the receiver. Mankind is generous by nature and giver as well as to the receiver. Mankind is generous by nature and spending for the pleasure of others.

Millions of dollars are spert each year for the parchase of gifts are larger and larger. This would not not foliate as the years pass the sum becomes larger and larger. This would not not foliate that the world is getting richer and richer. Persiste that the world is getting richer and richer. Persiste in the world is getting richer and richer. These are the people that Negroes should remember on Christmas and, if they would, Christmas would be just as happy, but much, much saner.

The spirit of Christmas, the generosity and the merriment, remain the same when the gifts are simple. And the Negro who is forth- ingrediter has maker will meanly Christian preachers will stand in jet. The powers of death shall take nate enough to make more money than his brother owes a debt to his group. He is under a moral obligation to do all in his power to improve his economic and financial status. He can only do this Improve his economic and financial status. He can only do this when he practices the thousand and one small economies which seem so insignificant when viewed alone but foom so large when considered in the aggregate. Money in the hand is power in the hand; money spent recklessly is power thrown to the four winds. Spain Sends Engineers to for Building Tunnel Under Straits of Gibraltar

MADRID. The long-checkind and ften-expressed desire of King Al-onso of Spain for a tunnel beneath the Straits of Cilicalian to link Europe and Africa by rall, has been brought measurably nearer with the announcement this week that a commission of technical expects had left for Algerias to study the project for several months Should the commission report favorably, the government would begin im-mediately the construction of the tunnel, which must be at least eight and one-half miles long. The announcement also said that

only Spanish money and Spanish con-tractors would be used to accomplish he engineering feat.

While the project would consume at least six years, it would ultimately outrival the German dream of a Berlin-to-Bagdad railway, for it would cannect with the Prepph Sanaga relieved, now under construction, and with the Cape-to-Calco rollway.

The road would open a new outlet for the interior wealth of Africa, per-mit traveters to take a train at Capo Town, South Africa, and go through to Paris or to Constantinople or Takio. Negro Spirituals to Oust Carols in Yuletide London

LONDON.-In the old days of Engand's Carlstmas pantomimes the ac-tors sang old carols and madrigal which had come from Elizabethur times and earlier. This year, however, Negro spirituals are to be sung at Christmas entertainments, and all aver Africa to Study Project master the Dixie accent before Chelst-

mas Day comes.

One can hear Negro songs being played on a handred pianos, steammed on a lumified mandaling, some by a hundred voices in studios above Charing Cross Road or Shaftesbury avenue, in the theatre district. Everywhere they ton fields, about Kentucky and Virginia and Alabama. The reason is not difficult to find.

Several months ago the song "Ole Man River" came to London in a musical enal successes which full to the lot of one song every two or three years. Im-mediately imitations were written, with the intention of making inroads upon "Ole Man River's" popularity. There is one called "Roll Away, Clouds," is making a success all its own. Others, like "Just Give the Southland to Me," are based upon the old spirituals and will be used in numerous Christmas

pantonimes.
The Landon public which goes into costasies over a new song blt has expressed an unnistalcable preference for rolling, sweeping melodies with a dash of sentiment and a dash of pathos, such as it finds in the Negro songs. For the time being the writers of comic somes are traveling a rocky road; their public wants to hear no more about mothers-in-law, or the younger generation, or the wheless or movies.

London's song audiences this year like living below the Mason-Dixon line; and those old gentlemen who bristle at the thought of London's

Filipinos Disturbed by Fear of "Three Marys" Put Crosses on Doors

MANILA. Fear of three blackrobed, headless sisters, who, supersti-tion says, are spreading death in Marrila and its suburbs, has caused thousands of Fillpinos to mark the front doors of their homes with white

The slory of the headless sisters, who are called the Tatlong Marks, or Three Marys, began to circulate a weeks ugo, and today 75 of the homes in and around Manila are marked with crosses.

According to those who have placed he crosses on their doors, the sisters are making nightly calls, and the person who answers their knock at the door will be stricken with a fata; illness. But, if a white cross is upon the door, the sisters will pass that residence by.

The story of the three sisters has had the effect of curbing neighborly visits in the evening. Fearing that they might find the dresded phantoms on their threshold, people answer knocks at the door after nightfall only with he greatest of reluctance.

A more serious superstition is dis-

losed in a constabulary report from Mindanao. The report said that a Chi-nese store owner and three other persons had been killed by the Atas, a superstition that a wife must be buried with the hands of four murdered per
