Social Service In New York

There are more than 1,000 social service and health agencies and institutions in this city to help the poor, the sick, the handicapped, the unemployed, to alleviate human suffering, no matter what the cause, to make life more livable for all people, it is shown in the new Directory of Social Agencies issued today by the Charity Organization Society in cooperation with the Welfare Council and twenty other organizations.

This total is in addition to 266 hospitals, some 1,400 clinics providing free or nominally priced medical service, and 200 national welfare and health agencies which make their headquarters in New York City.

More than 500 organizations render service to families; 480 are engaged in child welfare; 400 in neighborhood activities—many agencies being engaged in several or all of these major subdivisions of social work.

If a Car Hits You It's Your Fault!

LOS ANGELES—James A. Green, 32, walking to work, recently was knocked down by an automobile, following which the driver alighted and hit him in the eye.

But when a license number he went to the police, reporting; was crossing the street at Seventh and Westlake, a car knocked me down. When I got up, bruising my clothes and feeling for bruises, the driver came up and, with a curse, said: "What's the idea of getting in my way?"

"I told him I was sorry I had discomfited him, but that he would give me a check if I would get a pencil and paper and jot down his name.

"So he scribbled in the eye and drove away, saying: 'Let that teach you never to get in the way of an automobile!'"

Business Men Organize Company for Making of Paint Products

A group of Negro business men, headed by Mr. Homer Hillman, Rev. C. Hill and Mr. Eugene Little, of this city, are forming a corporation to manufacture paint products. As they are experienced men in this line it is safe to say that the company will fill a long felt need.

The company will employ to hundreds of men and women of our group. A preliminary salary above \$1,000. This step was made necessary because of loss in income, especially from Foundations and big gifts usually carried on the budget as "assured income." This is according to Mr. Hillman, who has a general five per cent cut was effective in September, 1931.

As a guarantee that this is no ordinary scheme, the executive committee unanimously agreed that all reductions be temporary measures to cope with the present emergency and that as soon as conditions warrant, the normal salary schedule will be resumed.

New York Urban League Makes Salary Cuts

According to an announcement made by James H. Hubert, executive director of the New York Urban League, the executive committee has authorized salary cuts ranging from five to thirty per cent on all salaries above \$1,000. This step was made necessary because of loss in income, especially from Foundations and big gifts usually carried on the budget as "assured income." This is according to Mr. Hubert, who has a general five per cent cut was effective in September, 1931.

WASHINGTON, D. C.—"It is to be principle of policy" will be the theme of the Association and thus through the musical program to a close.

The first speaker of the evening was Mr. Tyrrell an officer of the advisory board. He dealt strongly on the welfare of the children, especially those who are to carry on the work of the association when we are gone. They should be taught to respect their parents and to be obedient to their superiors.

She then thanked all the kind friends who were present, especially the natives who took interest in the meeting. She also mentioned the lady friends who were present, especially the natives who took interest in the meeting.

The principal speaker of the evening was Mr. Langford, of the membership of the U. N. I. A. branch in British Honduras. He is a wireless operator and demonstrated to the audience some of the methods of operation. He also made some very interesting remarks touching on the work of the Hon. Marcus Garvey and the association.

The lady president made customary remarks and brought the meeting to a close.

On Sunday, June 12th, the representatives of Mahatma Gandhi will speak at the Garvey Club Hall. All are invited.

The New York Division of the U. N. I. A. of August 1929 at the Wood met at 151-3 West 138th Street, in Mass Meeting, Sunday, May 29, which was opened and conducted by the chairlady, Hon. L. W. McCartney.

The opening order, from Greenland by mountain, was sung followed by a prayer by Rev. Baxter. Mr. Eastman made the welcome address, giving lots of food for thought. The President General's message was read by Roy Scott Conley Jones, which inspired the audience to carry on the great work unflinchingly with full determination.

The audience then sang the President General's hymn: "God Bless our President." The band, in excellent style, rendered several selections under the direction of Mr. Brown.

Madam L. A. McCartney, chairlady, commented on the Negro World, "the organization's mouthpiece," and as usual brought up the message of Madam Fanny Garner then followed with a dramatic solo accompanied by the Ladies Aid Society, distinguished artist.

The speakers were as follows: Roy Scott Conley Jones, J. C. C. Mr. Eastman, Rev. Baxter, Mr. Kelly, Mrs. Henderson stirred the audience to the highest pitch of enthusiasm with her oratory. Mr. Reid was his best, as usual, an ardent worker of the race.

Capt. J. Thornhill, U. L. H., brought up the rear. The meeting was indeed an enjoyable one with the singing of the Ethiopian National Anthem played by the band.

Godfrey in Court on \$700 Bad Check Charge

CLEVELAND, O.—After he had been thrown from the ring by George Fessick here last Tuesday night, George Godfrey was held in court on a bad check charge by a clerk of Councilman Lawrence Payne.

According to the complaint, Godfrey during a visit to Cleveland several years ago, had taken part in a check game, having lost all his available cash, had borrowed \$700 on a bogus check. He continued in the game and lost the money back.

However, when the man who had loaned the money to Godfrey cashed in on it, he discovered that it was no good. He therefore brought Godfrey to court.

It was held, however, that the court could not be made an agent for the collection of a gambling debt.

Appeals for Negro World

On Wednesday, April 27, the general public was honored with the presence of the international organizer of the U. N. I. A. and A. C. L. August 1929 of the world, the Hon. Maxam M. T. DeMena, who arrived from San Pedro de Macoris, R. D., officers of Central City, W. H. Rowland, first vice-president, and officers of Central City, W. H. Rowland, first vice-president, and officers of Central City, W. H. Rowland, first vice-president.

The meeting was called to order by the singing of the opening order by the choir, led by Mr. Charles E. Darley, during which time the officers marched to their respective places on the rostrum. The worthy chaplain, Mr. Jeremiah E. Martin, next performed the religious part of the meeting from the ritual, Mr. Valdemar A. Cable, chairman of the board, was then called upon to address the audience. Mr. Martin also addressed the meeting.

Next on the program was a recitation entitled "Welcome," by Miss Alice Maud Darley. A duet was rendered by Mr. Mabel G. and Miss Rebecca Martin, entitled "Love and Sunshine."

The international organizer, by the hand and formally introduced her to the audience. He said that he was quite familiar with the heart was filled with delight to see such a dignified person. We have heard of you in the past, and we are very glad to see you here. We are very glad to see you here. We are very glad to see you here.

The principal speaker was then introduced by Mr. J. H. St. Louis, who spoke very fluently for two hours on "Patience, Tolerance and Brotherly Love." He referred back to history when all through the ages great men were persecuted for their beliefs. He stressed the fact that we must have patience, tolerance and brotherly love.

Special mention must be made of Miss Alice Maud Darley, who addressed her audience with her talent in reciting. The collection was determined to hold its own under the leadership of the U. N. I. A. and A. C. L. G. Gordon, ex-president of this Division; Miss J. Stutz, secretary; and Mr. J. H. St. Louis, president, and Mr. J. Dobin, president of the Moran Division. A grand send-off was given to the speakers, with accompanying credentials. The president made the closing remarks, expressing regret at the departure of the many useful members at once. The National Anthem brought the meeting to a close.

On Sunday, May 22, being the fourth Sunday in the month, the hall was turned over to the millinery and dressmaking industry. The white table was set with a fine play entitled "Banker Hill," which was led by Mrs. J. H. St. Louis, who acted as mistress of ceremonies. A clarinet solo, "Traumerei," was given by Major L. D. Scott, who acted as soloist. The quartet, the Legion, there was a very comical talk between Capt. J. H. St. Louis and the vice-president and trustee, who were also in good form. We were favored with a quartet by Messrs. J. H. St. Louis, J. Dobin, and the Thompson brothers, whose voices blended most harmoniously. The President General's message was read by the secretary, and after the collection was taken up the meeting came to a close.

South Baltimore, Md.

The mass meeting of the South Baltimore Division was held on Sunday, May 22, at the home of the chaplain. The president in the chair, delivered a very fitting address. Other speakers were taken by the two little misses, Mrs. Hayes, Mrs. Bryant Gillispie, and Mrs. Mattie Estell. The song, "God Bless our President," was rendered by the quartet.

The audience then sang the President General's hymn: "God Bless our President." The band, in excellent style, rendered several selections under the direction of Mr. Brown.

UNIA Hatred Turns to Love

The Richmond Division knows no racial hatred. The hatred of the Negro Improvement Association is being turned into love. T. Brooks, co-commissioner of the Division, was the speaker at a meeting held on Sunday, May 22, and took for his subject "Leadership." It was a masterpiece.

Hon. Richard F. Lockett, the president, opened the meeting in his usual bright form from the Universal Ritual. Many short addresses were made by different members. Mr. Bell, our old sailor warrior of Garveyism, rendered by our lady president, Mrs. Lucy Scrutcheon. The song, "The Negro World," was sung by the choir, led by Mr. Charles E. Darley, during which time the officers marched to their respective places on the rostrum. The worthy chaplain, Mr. Jeremiah E. Martin, next performed the religious part of the meeting from the ritual, Mr. Valdemar A. Cable, chairman of the board, was then called upon to address the audience. THE RED STRATEGY

A NEGRO from Alabama, James W. Ford, was "unanimously" nominated by the Communist "convention" at Chicago, to run for vice-president under their banner. Of course, all the words in quotes above are meaningless as far as the Communists are concerned, for all decisions are made by a few insiders and what they say must be obeyed. Any opposition will be ruthlessly crushed. As far as no "if object" Negro can become a member of the Communist party it is doing some good to the Negroes that are joining it. As a matter of information our readers should know that some of these bright red-blacks used to be members of the U. N. I. A. Then they just used to protest, and now they must obey.

Mr. (or is it comrade?) Ford is nominated to run for vice-president for excellent reasons. Firstly, because he will not be elected, and secondly because he is a Negro. The Communist party at present, according to their own inner circles, is mostly composed of Negroes, and in fact it is known in the South as a "Nigger Party." Hence what else could they do but use Comrade Ford as a bait? It will be interesting to see how many black guillies will fall for this bait.

DON'T SLEEP ON THE JOB

PATRIOTISM is not a mere emotion which would taper off as soon as one makes a speech or sings a hymn. It is a JOB and a hard one at that. You must be on it all the 24 hours. Unless you are willing to make all possible, even impossible sacrifices for your country your patriotism will be in vain. You must not consider the costs if you are determined to redeem your country from the unhelpful grip of imperialism.

Those of our readers who believe in redeeming Africa with all their heart and all those members and divisions of the U. N. I. A. do know that they must keep up the fight until our flag is firmly implanted on the African soil. And in the light of this knowledge must they not support their organ, The Negro World, without subjecting it to the embarrassment of appealing to them repeatedly? We are sorry to report that our divisions and members are not supporting this paper as they should and regularly. Will they want us to continue?

Remember the Negro World is your only gun. Keep it in proper condition or you will be disarmed.

Rush your aid immediately.

THE EIGHTH WONDER

The depression seems to have affected the world to the extent that even its expected and long anticipated eighth wonder would be anticipated this period. Expectancy has been centered upon the coming of the eighth wonder, but many moons just around the corner. Should the eighth wonder put in an appearance, in order to divert the gaze of the multitude riveted on the place where cometh the eighth wonder, it would have to be stationed with his trumpet in the market place, and there blow copious blasts upon his trumpet.

There are so many oddities, national phenomena and scientific inventions stated by the proponents as "eighth wonders" that it is somewhat difficult for ages to determine just which of the number is the eighth wonder in its place. Experience inclines us to the opinion that the great expected eighth wonder will be the passing when Afro-Americans cease to fight each other and combine to fight the common enemy. It is the deplorable aftermath of the Maasi affair, the myriad other things the sufferer does not drive him to now, there is no hope that any future catastrophes will serve the purpose.—Chicago Bee.

Rise to Racial Level

Editor, The Negro World:

Please allow me space in the columns of your issue which may be published weekly to express my views, which I hope will help many of the so-called "intelligents" of our race to see the need of the program of the Universal Negro Improvement Association and our immortal leader, the Hon. Marcus Garvey, after a careful study on the present economic depression, and through analysis on the sufferings of our race. I do not come to you as a petitioner, but as a contributor to a so-called "intelligents" of our race. I do not come to you as a petitioner, but as a contributor to a so-called "intelligents" of our race.

With the above named factors I think it would be sufficient, if any one wants to establish a business and build a home. Just purchase the material from the organization. This will keep the money in the country, also give much work to our race. If we raise only one million dollars and send one thousand families single-handedly to the United States, we would be heard the lamentation of hunger and a place to live under the sun. Because of this fact, the Hon. Marcus Garvey, our immortal leader, has not been long in the world. He has not been long in the world. He has not been long in the world.

Brothers and sisters of our race, the first thing we should do is to get out of Europe, Africa, Asia and Asia. From starting with three sailing vessels to such modern ones as the Hamburg, Albert Ballin, Resolute, Reliance, New York, Deutschland and others. Let us put forth every effort, pledge at least \$1 per month, pay it and with this I think we can do it. Let us put forth every effort, pledge at least \$1 per month, pay it and with this I think we can do it.

The exigency of putting this program over should be written in capital letters on the breasts of every Negro man, woman and child; but to the contrary we are always fine Negroes who are not interested in the subject. We are always fine Negroes who are not interested in the subject. We are always fine Negroes who are not interested in the subject.

It is time for us to rise to our racial ability which our creator gave us, to go on to work and conquer, competing with the world to yield to our command, and build a foundation wherein our future generations will be able to stand. It is time for us to rise to our racial ability which our creator gave us, to go on to work and conquer, competing with the world to yield to our command, and build a foundation wherein our future generations will be able to stand.

“Opinions”

By DAVIS LEE

The New York Evening Journal has a very interesting article describing a hazardous arctic trek and many other things. It is a long story, but the judge told him that they are outnumbered five to one therefore, they are forced to punish the native for the slightest mistake, no matter how small. The article was interesting because it dealt with the race problem in a way that was not common. It was interesting because it dealt with the race problem in a way that was not common.

Practical industry, wisely and vigorously applied, never fails of success. It carries a man onward and upward, bringing out his individual character, and powerfully stimulates the action of others. All industry is a struggle for existence. It is somewhat difficult for ages to determine just which of the number is the eighth wonder in its place. Experience inclines us to the opinion that the great expected eighth wonder will be the passing when Afro-Americans cease to fight each other and combine to fight the common enemy. It is the deplorable aftermath of the Maasi affair, the myriad other things the sufferer does not drive him to now, there is no hope that any future catastrophes will serve the purpose.—Chicago Bee.

Industry has a physical bearing, and is strengthened by exercise and sinews brought by appointed office; the blood circulated by every organ performing its duty, disease repelled by internal vigor, appetite created by the call of duty, and the mind stimulated by the pursuit of knowledge. Let no man spare industry as his temporal ally. It is the safest and surest way to success in any arm. And with it may defy that want and poverty which more than any other thing destroy the independence of man.

Honorable industry always travels.

The New York Evening Journal has a very interesting article describing a hazardous arctic trek and many other things. It is a long story, but the judge told him that they are outnumbered five to one therefore, they are forced to punish the native for the slightest mistake, no matter how small. The article was interesting because it dealt with the race problem in a way that was not common. It was interesting because it dealt with the race problem in a way that was not common.

Practical industry, wisely and vigorously applied, never fails of success. It carries a man onward and upward, bringing out his individual character, and powerfully stimulates the action of others. All industry is a struggle for existence. It is somewhat difficult for ages to determine just which of the number is the eighth wonder in its place.
